10 May 1954

MEMORANDUM FOR THE RECORD

SUBJECT: LINC 2487 (IN 44568)

1. The subject cable, received at headquarters 7 May 1954, request headquarters to procure 20 limpets for shipment to FJHOPEFUL no later than 8 May. [ ] states that Mr. Esterline directed him to procure the necessary limpets through TSS and Logistics and to arrange for transportation by military aircraft in order that the limpets could be delivered at HOPEFUL no later than 8 May. I understand that the Office of Logistics had to recall from the road two ten-wheel truck trailers to provide transportation from [ ] to Andrews Field. A military aircraft was obtained through the Air Force by AMD, and the flight departed Andrews Field on Friday, 7 May, and arrived HOPEFUL 8 May.
2. Later, on Saturday, 8 May, it was learned that the above action was not necessary; however, when this information was received, the military aircraft had already departed Andrews Field.
